Media Education Centre (MEC)

Project description

It is the Danube's creation of the 'New Generation of Travelers': In the history of Europe, crucial things have happened along the Danube. The plan is to research and present environmental, touristic, cultural, educational and historical heritage during project implementation, with the support of students and teachers from Danube-region countries and beyond. The main goal is ultimately to include all countries from the Danube Region, in the future edition. Our project makes use of our multimedia education and experience, as well as of the experience of our partners in Germany, Austria, Slovenia, Hungary, Croatia and Serbia.

Project goal

Create Traveling Festival-Exhibition; floating classroom; bridge promoting dialogue and diversity; platform for lifelong-learning cooperation; and tool for developing sustainable ecological and environmental culture, and 'green' technologies. Promote Media, Information, Peace and Travelling Literacy

Beneficiaries and target groups

High school students and their teachers

Constraints and risk appraisal

The only problem could be the budget. In 2015, we have Germany, Austria, Hungary, Slovenia, Croatia and Serbia ready to participate, develop, contribute and implement the project with contributions. In the coming years, we would like to involve all 14 Danube Countries, including Moldova and Ukraine.

Type of financial product searching for

- Grant

Sectors

- Transport, Infrastructure and Energy
- Culture and tourism
- Environment and green business
- Research, education and labour market

Countries engaged in the project

- Austria
- Croatia
- Germany
