### Company/Institution RO

General Inspectorate of Romanian Gendarmerie

### Project description

The project is beneficial to Romania, as it is the protection guarantor of naval transport of products (with a special character in the Danube-River area of competence). It helps to protect the Romanian, Bulgarian, Ukrainian and Serbian populations, and to counter the imminent threat of a security incident over the transported product(s), particularly due to certain hostile actions. The implementation of this project will enhance the logistics support, and will improve skills and abilities of the personnel involved in these kind of naval protections on the Danube River (including Delta).

### Project goal

The project's aims are to protect the population in areas along the navigable channel through which hazardous, nuclear and radioactive materials are transported; & to eliminate the risk of security incidents over transports / incidents that could produce increased pollution or radioactivity.

### Beneficiaries and target groups

(i) Personnel involved in planning, coordinating and executing protection of hazardous transports from the Romanian Gendarmerie; and (ii) Similar structures from Bulgaria, Ukraine and Moldova

### Constraints and risk appraisal

- Lack of financing from international bodies
- Geopolitical situation in Ukraine
- Lack of partners' interest
- Institutional reorganization of national competences in project field
- High price variations for equipment
