- **Social inclusion and innovation**
- **New initiative of the Association of regions, cities and territorial communities of river Prut basin on EUSDR principles**

National Participation Day of EUSDR in Moldova

The main challenges of participation/participatory governance that should be addressed in the future?

- Maintaining the interest in participation issues during the whole year and not only during planning and implementation of the NPD.
- Participatory governance during the process of governmental reform and elections.
- Including participation of CSOs as an indicator in the projects supported by development partners.
- Joint events to promote the participation/participatory governance with different platforms.
