

EUSDR PA 10 Webinar on Youth Projects in the Danube Region

21 June 2022 Online

Youth Projects in the Danube Region

Youth projects make an important contribution to our society: people are accompanied in processes of change, supported in difficult situations and often young people themselves are encouraged to actively advocate for their issues.

The EU underlines the importance of these projects with the **European Year of Youth 2022**. But which funding programmes support youth projects? Which programme is suitable for me? What do I have to consider? PA10 wants to invite all interested parties to the webinar Youth Projects in the Danube Region to discuss exactly these questions with selected experts.

Online Meeting

Agenda

| | | |
|-------|---|---|
